

Touring by car

Auto Travel is a kind of tourism, the main feature of which is the car that serves as a main mean of transport for traveling. Touring by car was born immediately after the first cars were produced. Since the beginning of XX century, it has been gaining its popularity. That was before the first [mass automobile](#)

Ford appeared on the market in the United States. Then, with the appearance of the car, the roads began to develop; together they have created a new trend of tourism, which has become one of the most popular at the moment.

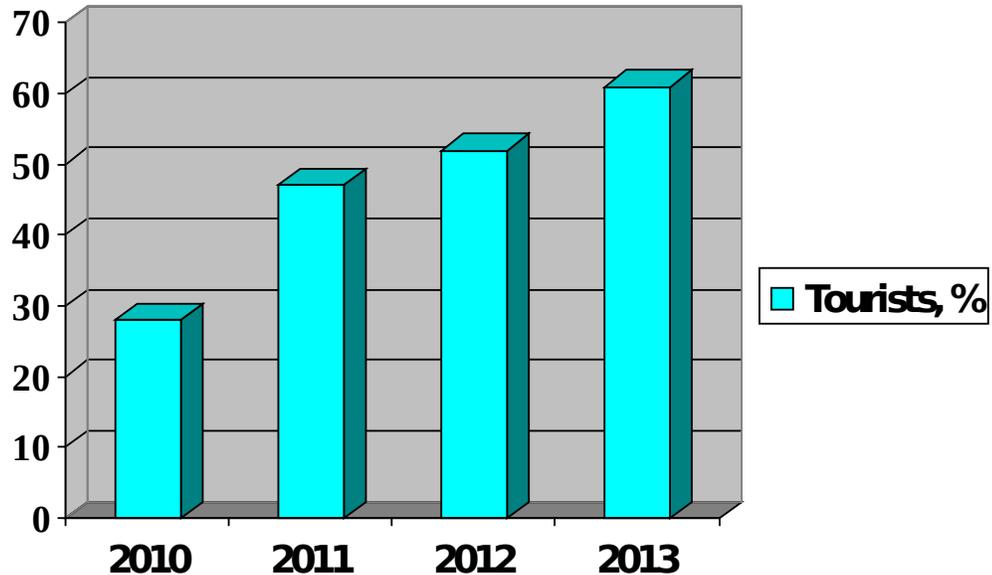

The main advantages of automobile tourism are:

- It is possible to travel to a long distances and take a long daily drives that let you see the largest possible number of tourist facilities, places of interest and [cultural monument](#).
- Ability to carry a lot of things, professional photo and video equipment, luggage, laptops, sports equipment, etc.
- With a car, you do not need to move in the stuffy excursion buses, and do not have to pay an exorbitant price for a taxi to get to the right place.
- Another plus of traveling by car is the ability to stop at any place and at any time. You will be able to pull over, when you want to stop for a rest or workout, for a picnic or swim. You can arrange a tour across the cities through which you will pass. In general, you have the opportunity to have an unforgettable experience on the way to your destination. On the other means of transport all that remains inaccessible.

Touring by car is very popular and wide spread in Canada and the United States. These two countries have formed the most developed infrastructure for such kind of tourism. Cars rental companies, motels and campgrounds are highly developed there.

Indeed, traveling by car is very popular. If to turn to [tourism statistics](#), you will find the proof to this statement. The following diagram shows the growth of car tourism popularity in recent years:

Among all the active forms of tourism touring by car is the most comfortable option. At the same time it is necessary to stress that the cost of automobile tours is quite high and it is a great disadvantage of such type of traveling. Value associated primarily with the high price on the car itself, and costly maintenance. If the car tour is cheap, it is

likely, there will be a lot of problems with vehicle on the route, which will lead to the disruption of the traveling. To avoid such negative experience it is necessary to choose a company, which provide reliable, up-to-date cars with the hardened glass of high quality, like, for example, [auto glass in Scarborough](#). Tempered auto glass

is classified as safety windows for car. If there will be a strong impact of a hard object on a tempered glass, it will break into many small fragments which do not have sharp cutting edges. Due to such quality of tempered glass, as high strength, it uses in

production of all up-to-date tour cars. Such auto glasses have high mechanical strength, however, during the trip, in case of high loads or sudden loads there can be a micro cracks. If such thing happens, it is better to be sure you can make [an auto glass repair](#) or, at least, find a specialist, which is able to do this. Otherwise, your car tour may be postponed. So, the main rule of car tourist is to select the company, which organizes a tour really carefully. You should take it seriously, as the whole journey and its success depends on the car condition. So choose reliable company.
